Zero Ozone Depleting Potential (ODP) Statement

This is to confirm there is no Ozone Depleting Potential substances used in the manufacture, or contained in the glass wool insulation products manufactured by Tasman Insulation New Zealand.

The products include:

- Pink® Batts® Ultra® insulation
- Pink® Batts® Classic insulation
- Pink® Batts® Silencer® insulation
- Pink® Batts® SnugFloor® insulation
- Pink® Batts® (BIB) Building Insulation Blanket®
- Noise Control Blanket™
- Siliner/Ductliner™
- Ductwrap
- Flexible Equipment Insulation™ (FEI™)
- Lightweight Equipment Insulation™ (LEI™)
- Intermediate Service Board™ (ISB™)
- Rigid Equipment Insulation™ (REI™)
- Preformed Pipe Sections
- Appliance Insulation
- White Wool

The Pink® Batts® Ultra® range of products has been assessed by the New Zealand Ecolabelling Trust and has been found to comply with the requirements of the Environment Choice Specification, Licence No 2504017 Thermal (resistive type) building insulants. This independent accreditation includes assessment of ozone depleting potential. While this Licence applies only to the higher R-value specified products (Pink® Batts® Ultra® range) due to their higher thermal efficiency potential, the manufacturing process used for the above products are identical with respect to their zero Ozone Depleting Potential (ODP) nature.

Regards,

Bhavna Prentice
